

Subsections 165(a) and 165(d) through 165(f) remain unchanged. Subsections 165(b) and 165(c), Title 14, CCR are amended to read:

§165 Harvesting of Kelp and Other Aquatic Plants.

...

(b) General Harvesting Provisions.

(1) Weighing of Kelp. A kelp harvester shall determine the weight of harvested kelp or other aquatic plants upon landing or delivery to the harvester's place of business. The harvester may determine the weight of harvested kelp or other aquatic plants using either direct weighing or a volume conversion that has been approved by the department. If the weight is determined by a public certified or licensed weighmaster, the harvester shall obtain a receipt and maintain the receipt in the landing record required under subsection (b)(3) below.

(2) Harvesting Records. Every person harvesting kelp and other aquatic plants and licensed pursuant to section 6650 of the Fish and Game Code shall keep a book or books recording the following:

(A) Category of plants harvested as defined in Section 165(c), (d) and (e).

(B) The wet weight of harvested kelp or other aquatic plants recorded in pounds or tons (1 ton = 2000 pounds).

(C) Name and address of the person or firm to whom the plants are sold, unless utilized by the harvester. The book(s) shall be open at all times for inspection by the department.

(3) Landing Records. Records of landing shall be prepared by all harvesters licensed pursuant to Section 6650 of the Fish and Game Code. Records of landing shall be made in triplicate using forms FG 113 (Rev. 1/97, see Appendix A) and FG 114 (~~Rev. 4/97~~)(Rev. 1/07, see Appendix A). The landing records shall show:

(A) The wet weight of all aquatic plants harvested in units as defined in subsection (b)(2)(B) above.

(B) Name of harvester.

(C) Department of Fish and Game kelp harvester number.

(D) Dates of landing and report period.

(E) Kelp bed number and, if applicable, harvest control area or marine protected area where plants were harvested.

(F) A duplicate copy of the landing record shall be kept by a kelp harvester for a period of one year and shall be available for inspection at any time within that period by the department. A kelp harvester who harvests kelp from a harvest control area established under subsection (c)(4)(E) below or from a marine protected area established under subsection 632(b) shall maintain a copy of the landing record on board the harvest vessel for all harvesting conducted during that harvest control period. The original and one copy of the record shall be delivered to the department at the address indicated within 10 days after the close of each month, with the specified royalty required for all kelp and other aquatic plants harvested. Failure to submit the required landing record and royalty fees within the prescribed time limit are grounds for revocation of the harvester's license.

(4) No eel grass (*Zostera*) or surf grass (*Phyllospadix*) may be cut or disturbed.

(5) No kelp or other aquatic plant may be harvested in a state marine reserve or state marine park as per subsection 632(a). Commercial harvest of kelp or other aquatic plants may be limited in state marine conservation areas as per subsection 632(b).

(6) It is unlawful to cause or permit waste of any kelp or other aquatic plants taken in the waters of this state or to take, receive or agree to receive more kelp or other aquatic plants than can be used without waste or spoilage.

(c) Harvesting of *Macrocystis* and *Nereocystis* (giant and bull kelp). In this subsection, kelp means both giant and bull kelp.

(1) A kelp harvester may harvest kelp by cutting and removing portions of attached kelp or by collecting unattached kelp.

(2) A kelp harvester may not cut attached kelp at a depth greater than four feet below the surface of the water at the time of cutting.

(3) No kelp received aboard a harvesting vessel shall be allowed to escape from the vessel or be deposited into the waters of this state.

(4) If, at any time, the commission finds that the harvesting of kelp will tend to destroy or impair any kelp bed or beds, or parts thereof, or tend to impair or destroy the supply of food for fish or marine mammals, the commission may limit or prohibit the harvest of kelp within a bed or portion of a bed for any length of time.

(A) In beds north of Point Montara, *Nereocystis* (bull kelp) may only be taken by hand harvesting. No mechanical harvesters of any kind are allowed.

(B) Between April 1 and July 31, a kelp harvester may not harvest bull kelp from a nonleased kelp bed that lies partially or totally within the boundary of the Monterey Bay National Marine Sanctuary extending from Santa Rosa Creek, San Luis Obispo County, northward to Rocky Point, Marin County. This subsection does not preclude the removal of bull kelp from beaches within the Monterey Bay National Marine Sanctuary during the seasonal closure.

(C) Prior commission approval of a kelp harvest plan is necessary before a kelp harvester may use a mechanical harvester to harvest giant kelp in a nonleased kelp bed north of Santa Rosa Creek, San Luis Obispo County. For approval of a kelp harvest plan, a harvester must identify how a mechanical harvester will be used while avoiding: 1) repetitive harvest from individual giant kelp plants; 2) harvest of bull kelp from those portions of kelp beds that contain both giant kelp and bull kelp; and 3) harvest giant kelp near sea otter rafting sites used by female sea otters with dependent pups.

(D) A kelp harvester may not harvest kelp in that portion of kelp bed 220 in Monterey County that lies ~~between~~ in the area bounded by the mean high tide line, a line extending due north from the tip of the Monterey breakwater and a line created by a seaward extension running 40° magnetic north from the northern-most portion of the unnamed point that lies seaward of the Chart House restaurant, approximately 3000 feet northwest of the tip of the Monterey breakwater latitude 36° 36.83 N.

(E) With a finding as determined in subsection (c)(4) above, the commission may designate, through emergency regulation, a nonleased kelp bed or portion of a bed as a harvest control area for a specified period of time. The commission shall set a cumulative harvest tonnage limit for each kelp harvester that may not be exceeded while harvesting within the control area during any consecutive 7-day period. The department shall maintain a list of active harvest control areas, their effective time period, and their cumulative harvest tonnage limit on its web page (www.dfg.ca.gov). The same information may be obtained by contacting the Marine Region office at 20 Lower Ragsdale Drive, Suite 100, Monterey, CA 93940.

(5) A kelp harvester may not harvest kelp from the following kelp beds:

Bed. No. Square Miles
